

# HELP SUPPORT TRANSIT EMPLOYEES IN CALIFORNIA

**Support transportation colleagues in Chico with a donation and Transdev will match your contribution.**

Devastating wildfires continue to burn near our fixed route operation in Chico, CA, where we have 110 team members. In nearby Paradise, a small town outside Chico where 25 percent of our area employees live, 95 percent of the homes and buildings were totally destroyed. This is the worst damage in the history of California fires. 15 of our colleagues there have lost everything—their homes and belongings burned to the ground.

We have provided \$11,600 for short term needs, but we need to do more and want your help. Our employees who lost everything will need temporary housing, clothing and the basics of life for several months, and help to get back on their feet again.

**If you can, please make a donation at the link below. Transdev will fully match all donations.**
