BRIEF DESCRIPTION

The purpose of this position is to provide classroom instruction in the theory and operation of the various systems that make up the Light Rail Vehicle. This is accomplished by reviewing schematic diagrams and the technical manual, providing a detailed syllabus and technical documentation in support of lectures, overseeing applied training in the repair of system components, shop equipment, emergency response, and radio procedures, scheduling classes and training employees in technical and non-technical aspects of vehicle and equipment maintenance, developing training manuals, lesson plans, schedules, procedures, certification programs, and vehicle maintenance technical libraries, preparing and conducting competency evaluations, assessments, and remedial training programs, and instructing employees in the repair, troubleshooting, and maintenance of electromechanical devices, microprocessor components, and mechanical systems.

The Sacramento Region is undergoing great transformations changes. As with any Metropolitan City, transportation is the backbone of a city. Good physical connectivity in the urban and rural communities are essential for economic growth. SacRT provides over 20 million rides annually to students, seniors, commuters, etc. As the largest transportation provider in the Sacramento region, SacRT employs close to 1,000 individuals and has over 700 retirees. As an employee of SacRT, you will receive great medical, insurance, pension and other benefits that many private agencies simply cannot provide. As a large employer in the Sacramento area, we take pride in our employees by providing training and opportunities for personal growth and advancement. If you are interested in joining this wonderful agency, please see the filing instructions below.
