SECTION 1. REQUEST

The San Benito County Local Transportation Authority, herein referred to as “LTA”, is soliciting proposals from qualified firms to complete an Analysis of Public Transit Network Expansion Projects for Congestion Relief of the Highway 25 Corridor Study, which will have the following project objectives:

Stakeholder Participation: To solicit input on potential public transit network expansion projects outside of the standard public review of the draft and final documents, a Project Development Team will be formed ideally with representation from Caltrans, Capital Corridor, San Benito Railroad LLC, Caltrain, VTA, AMBAG, San Benito County, City of Hollister, Gavilan College administration and students, community leaders including those representing vulnerable populations, and others to be determined. Other stakeholder participation opportunities with the general public will be bilingual (English and Spanish) and selected depending on the calendar of local community events during the development of the project. At a minimum one open house will be held and will be advertised using social and local media. Close attention will be made to ensure that residents of the disadvantaged community are actively engaged in the transportation decision-making process after reviewing AMBAG’s Public Participation Plan and Title VI Plans for AMBAG, COG, and LTA.

Public Transit Network Expansion Projects Feasibility: Before investing time and public funds into any potential projects, an analysis of how successfully, including performance measures, each public transit network expansion project selected for further research must be completed, accounting for factors that affect it such as economic, technological, legal, governance structure options, ridership and scheduling factors.

Implementation Strategies: A high-level implementation strategy for each of the public transit network expansion projects determined to be feasible will be prepared detailing the activities, project priority and phasing, potential project partnerships, expected difficulties/risks, performance measures and schedules required to achieve the objectives of the study.

Project Cost Estimates: The estimates will establish the costs associated with implementing the feasible public transit network expansion projects identified in the study, at different stages of development, including the operations and maintenance stage. Both direct and indirect costs will be provided.

Potential Funding Strategies and Sources Identification: To bring the study’s feasible public transit network expansion projects to fruition, potential funding strategies and sources, including revenue projections over the length of the project, will be identified and detailed. Passenger fare levels will be analyzed to maximize ridership and farebox recovery ratios. Investments will likely come from a variety of federal, state, and local sources.

SECTION 2. BACKGROUND

State Route (SR) 25 in northern San Benito County is highly congested during weekday commute hours due to the large number of residents commuting into Santa Clara County. The congestion has been so problematic there has been discussion about the immediate need to widen the corridor, placing sensitive environmental resources in the project area at risk.

In August 2016, the Council of San Benito County Governments (COG) completed a Highway 25 Widening Design Alternatives Analysis Study to identify alternative design scenarios and delivery strategies for the SR 25 4-Lane Widening Project as project costs far exceed anticipated highway improvement revenues in San Benito County for the next 20 years. Included in the analysis was a cursory review of potential alternative transportation modes to reduce project costs, congestion, vehicle miles traveled, and emissions. With the Analysis of Public Transit Network Expansion Projects for Congestion Relief of the Highway 25 Corridor Study, an in-depth feasibility study of public transit projects to help reduce congestion along the corridor will be completed.

San Benito County is a rural, agricultural, 1,389 square mile bedroom community south of Silicon Valley with a population of 55,269 and density of 39.8 persons per square mile according to the 2010 U.S. Census. There are two incorporated cities (City of Hollister and San Juan Bautista) and six unincorporated communities (Aromas, Tres Pinos, Panoche, Ridgemark, Bitterwater, and Paicines). The County is surrounded by the Counties of Santa Clara, Santa Cruz, Monterey, Fresno and Merced. Currently there is a freight rail line used by Union Pacific Railroad (UPRR) running parallel to SR 25 called the Hollister Branch Line, which is owned by the private firm San Benito Railroad LLC.

Due in part to its rural nature, San Benito County residents tend to contribute significantly to the amount of vehicle miles traveled in the region: 48.9% of the workforce travels to other counties for their employment, 78.1% drive alone as their preferred travel mode, and 60.3% travel more than 20 minutes to work (U.S. Census 2011-2018 American Community Survey). Included in the regular SR 25 travelers is an estimated 1,000 residents who attend Gavilan College in Gilroy (Santa Clara County), the nearest community college to San Benito County.

Congestion along SR 25 is only expected to increase, decreasing the corridor's overall service efficiency. The average daily traffic at the San Benito/Santa Clara County Line has more than doubled since the mid-1990's due to rapid population growth and commute trips, and is expected to double again by 2040. Additionally, a significant projected trip generator for the residents of San Benito County into Santa Clara County is the planned California High Speed Rail station in Gilroy, with service anticipated to begin in 2025.

For these reasons, there is a necessity to identify opportunities to expand the public transit network to provide more alternatives to driving along the corridor encouraging mode shift to transit. This work will build upon previous planning efforts in the region such as the San Benito County Local Transportation Authority's (LTA) Short Range/Long Range Transit Plan and Association of Monterey Bay Area Governments' (AMBAG) Rural Transit Improvement Initiative studying the unique needs of rural transit. Also, it is consistent with AMBAG's adopted 2035 Metropolitan Transportation Plan/Sustainable Communities Strategies and associated Implementation Project Place Types Matrix, as it supports enhancements for high quality transit

encouraging transit-oriented development. This coordination between land use and transportation allows for more sustainable communities both today and into the future.

The project deliverables that will include an implementation plan will increase transit ridership and associated active transportation, lower vehicle miles traveled, lower pollution and greenhouse gas emissions, reduce commute times, provide greater economic opportunity, and increase access between affordable housing in San Benito County and job centers in the Silicon Valley. These outcomes will benefit all San Benito County residents, especially those who are disadvantaged. Increasing effective public transit services along SR 25 will help address the mobility needs of disadvantaged community members, who are historically transit-dependent due to the high costs of car ownership.

San Benito County has one area within the City of Hollister (Census Tract FIPS: 06069000300) that is disadvantaged according to the California Health Disadvantage Index. Within this census tract, 89.8% of the residents are Latino, 27.9% of the households do not have anyone over the age of 14 who speak English well, 52.4% of adults have less than a high school diploma, there is a 21.4% unemployment rate, 48.3% of the residents live in households with incomes below twice the Federal Poverty Line, and 7.8% of households do not have access to an automobile. During the stakeholder participation portion of preparing this analysis, close attention must be paid to ensuring that residents of this census tract are actively engaged in the transportation decision-making process.

There is a clear need to identify feasible and effective public transit projects to eventually become funded and programmed improvements to help relieve congestion along SR 25. The consequences of not funding this analysis include increased vehicle miles traveled, commute times, pollution, and greenhouse gas emissions, which disproportionately impact disadvantaged communities.

3.13 Selection Procedure

The LTA shall perform an initial review of all Proposals to determine responsiveness as specified in Paragraph 3.4 in this RFP. The Evaluation Committee will review all responsive Proposals and will rank Proposals in descending order of preference. The

Evaluation Committee will then select the preferred Proposal, that best meets the needs as set forth in this RFP, is the best qualified, and is able to provide the requested services as follows:

- **PRE-SELECTION:** The Evaluation Committee will review and screen the Proposals for completeness. Proposals that are incomplete, or improperly written, may be considered non-responsive and may be rejected. Each Proposal will be evaluated for its completeness and responsiveness to the Evaluation Criteria set forth in Section 3.12 above, and to the Scope of Work outlined in Section 4 of this RFP. Based upon the scores of responsive Proposals, the Evaluation Committee will set a competitive range and invite Respondents in the competitive range to participate in an in-person interview. Top ranking Respondents will be asked to prepare an oral presentation of their Proposal to the Evaluation Committee. References may be contacted by any person of the Evaluation Committee. The Evaluation Committee reserves the right to evaluate the interview and presentation, and to reevaluate the initial Proposal based upon new information provided during the interview component.
- **SELECTION:** Award of a contract shall not be based on cost alone, but on the strength of qualifications of the Respondent and the Respondents' capability of providing the services outlined in the RFP. The Evaluation Committee will rank the Proposals based upon the interview, compliance with the RFP terms and conditions, quality and performance of the services offered based on previous contracts, reference checks for the same or similar services, and the capacity of the Respondent to perform the required services.
- **NEGOTIATIONS:** Staff will enter into negotiations with the highest ranked Respondent, regarding the terms of a contract consistent with the RFP and the Proposal, which will be submitted to the LTA Board of Directors for approval. The successful Respondent will be expected to enter into the agreement appended as Exhibit G to this RFP. No modifications to the general terms and conditions of the standard contract appended as Exhibit G to this RFP will be considered, except as indicated in this RFP. If an agreement is not reached within a reasonable time after the highest ranked Proposal is identified, the LTA reserves its right to terminate negotiations with the highest ranked Respondent and begin negotiations with the next highest ranked Respondent, suspend the process entirely or request new Proposals. This process will continue until an agreement is reached or all Proposals are rejected.

All Respondents may be notified of the Proposal which is ranked highest. No other information will be released.

The evaluation of the Proposals shall be within the sole judgment and discretion of the Evaluation Committee. LTA reserves the right to reject any and all Proposals received pursuant to the RFP. Award of a contract is contingent on funding availability and the LTA Board of Directors' approval. The LTA is under no obligation to award any contract. There shall be no appeal of any decision of the LTA, or any LTA representative.

The parties consider each and every term, covenant, and provision of this contract to be material and reasonable.

C-22. WAIVER.

Waiver by either party of a breach of any covenant of this contract will not be construed to be a continuing waiver of any subsequent breach. LTA's receipt of consideration with knowledge of CONTRACTOR'S violation of a covenant does not waive its right to enforce any covenant of this contract. The parties shall not waive any provisions of this contract unless the waiver is in writing and signed by all parties.

C-23. AUTHORITY AND CAPACITY.

CONTRACTOR and CONTRACTOR'S signatory each warrant and represent that each has full authority and capacity to enter into this contract.

The exercise of any single right, option, election, power or remedy shall not, in any way, impair any other

right, option, election, power or remedy until all duties and obligations imposed shall have been fully performed.

The parties expressly assume the risk of the facts turning out to be different and agree that this contract shall be effective in all respects and shall not be subject to rescission by reason of any such difference in facts.
