

The Federal Transit Administration (FTA) requires each state to have an approved State Management Plan (SMP) outlining the State's procedures for the effective administration of FTA programs. This document provides an understanding of the FTA's requirements for the administration and implementation of these programs and Caltrans' policies and procedures for the management of the programs in California.

The draft 2019 State Management Plan has been posted on the DRMT website for comments and feedback from stakeholders:

Comments are requested back by August 9th after which the document will be finalized and submitted to FTA for approval. Any comments or feedback on the updated SMP can be sent to Sharon.Beasley@dot.ca.gov
